Additional Comments:

It was incredible usefull, but I guess its needed much more following of excewires. Hopefully all feedback would improve with experimentation and from then the use of the tool would change prosedures and strateyical advantages for construction.

Additional Comments:

I add just „Good" for "How easy was the trainer to understand" because API topik was before we started new for me I wasn't really know what it is for and what I could get from it. After this 3 days presentation I am really heappy to attend to it and really thank full for trainer time and knowledge.
